RESERVE CHAMPION FEMALE

We recommend this sale as the place to buy purebred Shorthorn cattle in the early fall. The eleven bulls are the kind that offer the best in modern day breeding and they are ready for light service. The female offering is quite attractive including many cow and calf combinations. We are especially proud of the 1953 calves that are being offered. Six of these are heifers and are very nice. From twenty-five to thirty 1953 steer calves will be offered and they will sell first.

Selling first at 12:30 p. m. will be six nice purebred bred Shorthorn heifers. These heifers are 1953 calves and certificates of registry will be furnished with the calves. Several years ago, realizing the need for the promotion of more 4-H Club activity, the Northern Indiana Shorthorn Breeders' Association decided to sell 4-H calf prospects through their annual breeding cattle sale. Excellent results have been obtained. Many of the calves bought in previous Huntington and Warsaw, Indiana sales have been show winners in major shows. This year the association is offering premium money to the calf purchasers if they show their calves to first place or grand championships in the respective counties where the calves are exhibited. If you are looking for good steers to fit this coming year, why not come to the Northern Indiana Sale and look this offering over.

STANDARD GUARANTEE

OF

AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction. All animals sold in this sale will be backed by the above Standard Guarantee. As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
